

CAMBOROUGH®

Prolificacy, Efficiency, Robustness
The superior economic package

Prolificacy with

- large litters
- uniform and vigorous piglets
- docile temperament
- perfect mothering abilities

Efficiency with

- fewer gilt development days
- target body weight for first service at significantly lower age
- low-cost per weaned piglet by
 - less feed usage per weaned piglet
 - more lifetime pigs marketed per gilt
- weaned pigs with
 - superior feed conversion
 - high daily gain from birth to market,
 - optimum carcass cuts with excellent lean meat

Robustness with

- outstanding longevity
- low sow mortality
- long productive life

The Camborough® is the ideal choice for farmers who want to experience high prolificacy combined with less costs per piglet.

PIC's L03: The dam of the Camborough

L03-Multiplier in Europe (Germany) 1,800 sows	2011/12	2012/13	2013/14	7/14 – 09/14
